

Appl. No. 10/621,760  
Amdt. dated July 5, 2006  
Reply to Office action of April 4, 2006

AMENDMENTS TO THE CLAIMS

In the claims, please amend claim 1 as follows:

1. (currently amended) A deliverable composition for delivering an siRNA to a cell in vitro comprising: an amphipathic compound, a polyvinylamine, and [[an]] said siRNA.
2. (previously presented) The composition of claim 1 wherein the amphipathic compound has the structure comprising:

- wherein R1 and R2 consist of C6-C24 alkenes.
3. (original) The composition of claim 2 wherein R1 and R2 of the amphipathic compound are the same.
  4. (canceled)
  5. (previously presented) A process for delivering a siRNA to an animal cell comprising: associating the cell with a composition comprising an amphipathic compound, an effective amount of a polyvinylamine, and a siRNA in solution.
  6. (original) The process of claim 6 wherein the animal cell is in vivo.
  7. (original) A process of claim 6 wherein the animal cell is in vitro.
  8. (original) The process of claim 6 wherein the animal cell is ex vivo.
  9. (original) The process of claim 6 wherein the animal cell is a mammalian cell.
